## Reading Through the Book Bands

By the end of Term 1 in Year 2, children working at the average level should be reading books in turquoise or purple bands. Please remember however that children learn in different ways and make progress at different times. It is possible that there may be seven-year olds on book band red and five-year olds on book band turquoise.

As a rough guide, children are expected to reach the lime band at seven or eight years old. Children who read above lime level are reading fairly fluently and although some books are still graded above this level, children are reading such a wide range of material that the banding becomes not so important.

The books will vary in a number of ways, including layout, size, vocabulary and length, to give the children a rich diet of literature. The difference between each colour band/number stage is very gradual, so that children do not experience great difficulty moving up through the scheme.

Progress through the bands is not automatic and it is important to ensure that children working in the early bands have secure understanding so that they remain motivated as they move on to more challenging texts. This is particularly important for children at the early stages of learning English as an additional language (EAL).

This guidance can only give a general idea of the reading level for your child. There will be a wide range of reading abilities in each school year. As a rough guide, children should be able to read at least $90-95 \%$ of the words on the page without any problem. If the book is too easy, they can become bored. If it's too difficult, they can become frustrated, and may have to concentrate so hard on reading the words that they lose the enjoyment of understanding the story.

Children reading rainbow level will be deemed 'free readers'. It is not a race to get to this level, it is a Journey. Children learn at different rates just as they learn to walk, dress themselves at different rates. Reading must not be treated as a competition. If children are rushed through the books they will not achieve the enjoyment and understanding necessary. Books that they find too difficult will soon put them off reading.

Things to Remember: -

- Please continue to listen to your child read every day.
- Little and often is more beneficial than a long session once a week.
- Think about how long you are reading for - the amount of reading time shouldn't exceed your child's span of attention.
- Pick your timing carefully - it's best not to embark on a reading session when your child is tired.
- Every child is an individual - try not to compare your child's progress with other children or with brothers and sisters.
- "Parents can instil a love of reading long before a child goes to school and deepen that love of reading as the child grows up."
- Enjoy reading with your child and help them become lifelong readers.

## How to Support Your Child With Their Reading:
