

The Oaktree School

Early Years Foundation Stage

Physical Development Workshop

Physical Development (PD)

ELG

- Physical Development is one of the three prime areas of learning in the EYFS framework, the other two being Personal, Social and Emotional, and Development and Communication and Language.
- These three areas are recognised as prime as they form the basis of all other aspects of young children's learning and development. They are regarded as particularly important for inspiring young children's curiosity and enthusiasm, and laying the foundations for future success in all aspects of life and education.

Physical Development (PD) ELGs

The PD Early Learning Goals, which children must meet by the end of the EYFS, are divided into

Moving and Handling ELG

'Children show good control and co-ordination in large and small movements. They move confidently in a range of ways, safely negotiating space. They handle equipment and tools effectively, including pencils for writing'

Health and Self-care

'Children know the importance for good health of physical exercise, and a healthy diet, and talk about ways to keep healthy and safe. They manage their own basic hygiene and personal needs successfully, including dressing and going to the toilet independently'

Physical Development (PD)

ELG

Children must be able to show -

- good control and co-ordination in large and small movements,
- move confidently in a range of ways,
- safely negotiating space and
- handle equipment effectively.

The Importance of Physical Development

- To help young children to develop their moving and handling skills, teachers and parents should provide lots of opportunities for them to use large muscle movements to explore their immediate environment and develop fine motor control through manipulating materials and using tools and equipment.
- Being physically active not only strengthens muscles and develops the heart and lungs, it also supports the development of the brain.

The Importance of Physical Development

- Physical development also develops shoulder stability, hand strength, and coordination - important for later movement skills including writing.
- Large muscle control develops before fine motor control, so children need lots of opportunities to make big movements with their arms before they can develop the fine motor control needed for holding a pencil.
- Writing requires a combination of fine motor control and hand eye coordination; skills which need lots of practise indoors and out of doors.

What does Physical Development look like?

Ideas for home...

Some Fine Motor Skills develop independence too!

Fine Motor Skills are needed for Writing

As young children develop the muscles in their hands, they develop the strength they need for the fine motor skill needed for writing.

The Developmental Progression Children's Writing			
 <p>1. Pictures</p>	 <p>2. Random Scribbling</p>	 <p>3. Scribble Writing (Letters in lower fashion to enter real writing.)</p>	 <p>4. Symbols That Represent Letters</p>
 <p>5. Random Letters (No relationship between sounds of letters and what the child is trying to do.)</p>	 <p>6. Letter Strings (Progresses from left to right and top to bottom when the child "reads" something.)</p>	 <p>7. Letter Groups (The groups have shape in common to resemble words.)</p>	 <p>8. Environmental Text (Child copies print found in the home, often without knowing what the words are.)</p>
 <p>9. Beginning Sounds (Child begins to write simple sentences using single words and just the beginning sounds of words.)</p>	 <p>10. Early Inventive Spelling (Includes the same elements of the previous level, but with more consistent sound representation and more invented words.)</p>	 <p>11. Inventive Spelling (Like the same elements of the previous level, but with more accurate phonetic representation, including the vowels, final consonants and ending punctuation.)</p>	 <p>12. Transitional Writing (Includes all of the previous elements, plus some real spelling of words with some letters and other spelling patterns. Punctuation is beginning to appear.)</p>
